## **SECTION 2: Hazards identification**

2.1 Classification of the sub	stance or mixture
Product definition	: Mixture
Classification according to Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411	Regulation (EC) No. 1272/2008 [CLP/GHS]
Classification according to	Directive 1999/45/EC [DPD]
The product is classified as	dangerous according to Directive 1999/45/EC and its amendments.
Classification	: Xi; R36/38 R43 N; R51/53
Human health hazards	: Irritating to eyes and skin. May cause sensitisation by skin contact.
Environmental hazards	: Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
See Section 16 for the full te	xt of the R phrases or H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

ARALDITE 2011 GB RESIN				2/1
Date of printing	: 7	September 2012	MSDS no.	: 00074041
Date of issue	: 7	September 2012	Version	: 1
<b>SECTION 2: Hazards</b>	s id	entification		
Hazard pictograms	:	! 1		
Signal word		Warning		
Hazard statements	:	Causes skin irritation. Causes serious eye irr May cause an allergic Toxic to aquatic life wit	skin reaction.	
Precautionary statements				
General	:	Not applicable.		
Prevention	-			time): butyl rubber, Ethyl Vinyl tection. Avoid release to the
Response	:		utiously with water for seve easy to do. Continue rinsin	eral minutes. Remove contact
Storage	:	Not applicable.		
Disposal	:	Not applicable.		
Hazardous ingredients	1	reaction product: bisph molecular weight < 700		boxy resin (number average
Supplemental label elements	:	Not applicable.		
Supplemental label elements	:	Contains epoxy constit	uents. See information su	pplied by the manufacturer.
Special packaging requiren	nen	t <u>s</u>		
Containers to be fitted with child-resistant fastenings	:	Not applicable.		
Tactile warning of danger	:	Not applicable.		
2.3 Other hazards				
Other hazards which do not result in classification	:	Not available.		

Date of issue / Date of revision : 9/7/2012.

bisphenol A - epoxy resins, number average MW >700 - <1100	CAS: 25068-38-6	3-7	Xi; R36/38 R43	Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317	[1]
			See Section 16 for the full text of the R- phrases declared above.	See Section 16 for the full text of the H statements declared above.	

#### <u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

## **SECTION 4: First aid measures**

4.1 Description of first aid me	eas	ures
Eye contact	:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	:	Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	:	Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

ARALDITE 2011 GB RESIN			4/16
Date of printing	: 7 September 2012	MSDS no.	: 00074041
Date of issue	: 7 September 2012	Version	: 1
SECTION 4: First ai	d measures		
Protection of first-aiders	may be dangerous to	the person providing aid to	sk or without suitable training. It give mouth-to-mouth resuscitation. er before removing it, or wear
4.2 Most important sympton		te and delayed	
Potential acute health effe			
Eye contact	: Causes serious eye		
Inhalation	: No known significant	effects or critical hazards.	
Skin contact	: Causes skin irritation	. May cause an allergic skin	reaction.
Ingestion	: Irritating to mouth, th	roat and stomach.	
Over-exposure signs/sym	ptoms		
Eye contact	: Adverse symptoms pain or irritation watering redness	may include the following:	
Inhalation	: No specific data.		
Skin contact	: Adverse symptoms irritation redness	may include the following:	
Ingestion	: No specific data.		
4.3 Indication of any immed			
Notes to physician	quantities have been	ingested or inhaled.	t specialist immediately if large
Specific treatments			s indicated. Following severe al review for at least 48 hours.

## **SECTION 5: Firefighting measures**

5.1 Extinguishing media		Lies on ovtinguishing agent quitable for the ourrounding fire
Suitable extinguishing media		Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	:	None known.
5.2 Special hazards arising f	ron	the substance or mixture
Hazards from the substance or mixture	:	In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous thermal decomposition products	:	Decomposition products may include the following materials: carbon dioxide carbon monoxide halogenated compounds metal oxide/oxides
5.3 Advice for firefighters		
Special precautions for fire-fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Date of issue / Date of revision : 9/7/2012.

4/16

SECTION 5. Eir	fighting massures			
Date of issue	: 7 September 2012	Version	: 1	
Date of printing	: 7 September 2012	MSDS no.	: 00074041	
ARALDITE 2011 GB R	ESIN			5/16
Conforms to Regulation	on (EC) No. 1907/2006 (REACH),	Annex II - United Kingdo	m (UK)	

## SECTION 5: Firefighting measures

Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.
---	---

## **SECTION 6: Accidental release measures**

6.1 Personal precautions, pro	te	ctive equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	:	Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.
6.3 Methods and materials for	r c	ontainment and cleaning up
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see section 1 for emergency contact information and section 13 for waste disposal.
6.4 Reference to other sections	:	See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
	Neteralizable

Not applicable.

**Date of issue / Date of revision** : 9/7/2012.

ARALDITE 2011 GB RESIN			6/
Date of printing	: 7 September 2012	MSDS no.	: 00074041
Date of issue	: 7 September 2012	Version	: 1
SECTION 7: Handlin	g and storage		
Advice on general occupational hygiene	handled, stored and pre eating, drinking and sm	ocessed. Workers should noking. Remove contamin ring eating areas. See als	d in areas where this material is wash hands and face before hated clothing and protective so Section 8 for additional
7.2 Conditions for safe storage, including any incompatibilities	accordance with local r sunlight in a dry, cool a (see section 10) and fo ready for use. Contain kept upright to prevent	egulations. Store in origin nd well-ventilated area, av od and drink. Keep conta ers that have been opened	0°C (35.6 to 104°F). Store in hal container protected from direct way from incompatible materials iner tightly closed and sealed until d must be carefully resealed and unlabelled containers. Use contamination.
Storage hazard class Huntsman Advanced Materials	: Storage class 10, Envir	ronmentally hazardous liqu	uids
7.3 Specific end use(s)			
Recommendations	: Not available.		
Industrial sector specific solutions	: Not available.		
SECTION 8: Exposu	re controls/person	al protection	
•	contains generic advice an	d guidance. The list of Ide	ntified Uses in Section 1 should be
•			(iii)(3).
8.1 Control parameters Occupational exposure lim	ite		
No exposure limit value kno			
	vvii.		
Recommended monitoring procedures	atmosphere or biologic of the ventilation or oth protective equipment. methods for the assess	al monitoring may be requ er control measures and/c Reference should be mad sment of exposure by inha	e limits, personal, workplace lired to determine the effectiveness or the necessity to use respiratory le to European Standard EN 689 for lation to chemical agents and e determination of hazardous
Derived effect levels			
No DELs available.			
Predicted effect concentra	<u>tions</u>		
No PECs available.			

#### 8.2 Exposure controls Appropriate engineering

### controls

**ng** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

#### Individual protection measures

Conforms to Regulatio	n (EC) No. 1907/2006 (REACH),	Annex II - United Kingdo	m (UK) 7/16
Date of printing	: 7 September 2012	MSDS no.	: 00074041
Date of issue	: 7 September 2012	Version	: 1
SECTION 8: Exp	osure controls/person	al protection	

Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Material of gloves for long term application (BTT>480min):	-	butyl rubber, Ethyl Vinyl Alcohol Laminate (EVAL)
Material of gloves for short term/splash application (10min <btt<480min): (BTT = Break Through Time)</btt<480min): 	:	nitrile rubber, neoprene
, ς γ		Use gloves approved to relevant standards e.g. EN 374 (Europe), F739 (US). Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material and dexterity. Always seek advice from glove suppliers. Additional information can be found for instance at www.gisbau.de.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## **SECTION 9: Physical and chemical properties**

9.1 Information on basic physica	rand chemical properties	
Appearance		
Physical state	: Liquid. [Paste.]	
Colour	: Natural color	
Odour	: Slight	
Odour threshold	: Not available.	
рН	: 6 [Conc. (% w/w): 50%]	
Melting point/freezing point	: Not available.	
Initial boiling point and boiling range	: >200°C	
Flash point	: Closed cup: 210°C [DIN 51758 EN 22719 (Pensky-Martens Closed Cup)] Open cup: 260°C	
Evaporation rate	: Not available.	
Date of issue / Date of revision :	9/7/2012.	7/16

ARALDITE 2011 GB RESIN				8/10
Date of printing :	7 September 2012	MSDS no.	: 00074041	
Date of issue :	7 September 2012	Version	: 1	
SECTION 9: Physical a	nd chemical pro	perties		
Flammability (solid, gas)	: Not available.			
Burning time	: Not applicable.			
Burning rate	: Not applicable.			
Upper/lower flammability or explosive limits	: Not available.			
Vapour pressure	: <0.0001 kPa [20°C	]		
Vapour density	: Not available.			
Relative density Solubility(ies)	: Not available.			
Water solubility	: practically insoluble	)		
	20 deg C			
Partition coefficient: n- octanol/water (LogKow)	: Not available.			
Auto-ignition temperature	: Not available.			
Decomposition temperature	: >200°C			
Viscosity	: Dynamic: 30000 to	50000 mPa⋅s	25	deg C
Explosive properties	: Not available.			
Oxidising properties	: Not available.			
9.2 Other information				
Density	: 1.15 g/cm <sup>3</sup> [25°C (7	′7°F)]		
SECTION 10: Stability	and reactivity			
10.1 Reactivity :	No specific test data re	lated to reactivity available	for this product or its ingr	edients.
10.2 Chemical stability :	The product is stable.			

## **10.3 Possibility of** : Under normal conditions of storage and use, hazardous reactions will not occur. hazardous reactions

10.4 Conditions to avoid	No specific data.	
10.5 Incompatible materials	strong acids, strong bases, strong oxidising agents	
10.6 Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition produces should not be produced.	ots
	Decomposition products may include the following materials:Carbon oxides, B produces obnoxious and toxic fumes.	urning

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product/ingredient name	Test	Endpo	int	Exposure	Species	Result	
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	-	Acute	EC50	72 hours Static	Algae	9.4	mg/L
	OECD 202 <i>Daphnia</i> sp. Acute Immobilisation Test	Acute	EC50	48 hours Static	Daphnia	1.7	mg/L
	-	Acute	IC50	3 hours Static	Bacteria	>100	mg/L
	OECD 203 Fish, Acute Toxicity Test	Acute	LC50	96 hours Static	Fish	1.5	mg/L
	OECD 211 Daphnia Magna Reproduction Test	Chronic	NOEC	21 days Semi- static	Daphnia	0.3	mg/L
bisphenol F-epoxy resin	OECD 201 Alga, Growth Inhibition Test	Acute	EC50	72 hours Static	Algae	1.8	mg/L
	OECD OECD 202: Part I (Daphnia sp., Acute Immobilisation test)	Acute	EC50	48 hours Static	Daphnia	1.6	mg/L
	-	Acute	IC50	3 hours Static	Bacteria	>100	mg/L
	OECD 203 Fish, Acute Toxicity Test	Acute	LC50	96 hours Semi- static	Fish	0.55	mg/L
	OECD 211 Daphnia Magna Reproduction Test	Chronic	NOEC	21 days Semi- static	Daphnia	0.3	mg/L

#### 12.2 Persistence and degradability

Product/ingredient name	Test	Period	Result
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	OECD Derived from OECD 301F (Biodegradation Test)	28 days	5 %
bisphenol F-epoxy resin	EU	28 days	0 %

molecular weight $< 700$ ): Not readily biodegradable.				
Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability	
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	Fresh water 4.83 days Fresh water 3.58 days Fresh water 7.1 days	-	Not readily	
bisphenol F-epoxy resin	-	-	Not readily	

#### **12.3 Bioaccumulative potential**

Product/ingredient name	LogPow	BCF	Potential
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	3.242	31	low
bisphenol F-epoxy resin	2.7 to 3.6	-	high

#### **12.4 Mobility in soil**

Date of issue	: 7 September 2012	Version	: 1			
Date of printing	: 7 September 2012	MSDS no.	: 00074041			
ARALDITE 2011 GB R	ESIN			13/16		
Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II - United Kingdom (UK)						

### **SECTION 12: Ecological information**

Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

#### 12.5 Results of PBT and vPvB assessment

Not applicable.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

#### 12.7 Other ecological information

## **SECTION 13: Disposal considerations**

: Yes.

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

**Product** 

Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
---------------------	---

#### Hazardous waste

#### European waste catalogue (EWC)

Waste code	Waste designation		
07 02 08*	other still bottoms and reaction residues		
Packaging	-		
Methods of disposal	<ul> <li>The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.</li> </ul>		
Special precautions	: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.		

## **SECTION 14: Transport information**
