# SAFETY DATA SHEET

ARALDITE® CY 221

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Product name	
Product code	
Product description	

: ARALDITE® CY 221

- : 00058003
  - : Component used for the manufacture of electrical insulation parts

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified use	5
Not available.	
Uses advised against	Reason
Not available.	-

#### 1.3 Details of the supplier of the safety data sheet

	•
Supplier	: Huntsman Advanced Materials (Europe)BVBA Everslaan 45 3078 Everberg / Belgium Tel.: +41 61 299 20 41 Fax: +41 61 299 20 40
e-mail address of person responsible for this SDS	: Global_Product_EHS_AdMat@huntsman.com

#### **1.4 Emergency telephone number**

**Supplier Telephone number** : EUROPE: +32 35 75 1234 France ORFILA: +33(0)145425959 ASIA: +65 6336-6011 China: +86 20 39377888 India: +91 22 4050 6333 Australia: 1800 786 152 New Zealand: 0800 767 437 USA: +1/800/424.9300

HUNTSMAN Enriching lives through innovation

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

**Product definition** : Mixture

#### Classification according to Directive 1999/45/EC [DPD]

The product is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification		XI; R36 R43 N; R51/53
Human health hazards	:	Irritating to eyes. May cause sensitisation by skin contact.
Environmental hazards	:	Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
See Section 16 for the full tex	ct of	f the R phrases or H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Date of issue / Date of revision : 12/10/2012.

Wellmid Electronics (Shenzhen)Co.,Ltd.

Conforms to Regulatio	n (EC) No. 1907/2006 (REACH), A	Annex II - United Kingdon	n (UK)	
ARALDITE CY 221				2/16
Date of printing	: 10 December 2012	(M)SDS no.	: 00058003	
Date of issue	: 10 December 2012	Version	: 2	
<b>SECTION 2: Haz</b>	ards identification			

Hazard symbol or symbols		
Indication of danger	: Irritant, Dangerous for the environment	
Risk phrases	: R36- Irritating to eyes. R43- May cause sensitisation by skin contact. R51/53- Toxic to aquatic organisms, may cause long-term adverse effects in aquatic environment.	the
Safety phrases	<ul> <li>S24- Avoid contact with skin.</li> <li>S37- Wear suitable gloves.</li> <li>S61- Avoid release to the environment. Refer to special instructions/safety da sheet.</li> </ul>	ata
Hazardous ingredients	<ul> <li>reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight &lt; 700) diglycidylether of polypropyleneglycol</li> </ul>	
Supplemental label elements	: Not applicable.	
Supplemental label elements	: 4,4'-Isopropylidenediphenol, oligomeric reaction products with 1-chloro-2,3- epoxypropane, reaction products adduct with 3-aminomethyl-3,5,5- trimethylcyclohexylamine and m-phenylenebis(methylamine)Phenol, 4,4'-(1- methylethylidene)bis-, polymer with 5-amino-1,3,3- trimethylcyclohexanemethanamine, 1,3-benzenedimethanamine and (chloromethyl)oxirane	
Special packaging requirem	e <u>nts</u>	
Containers to be fitted with child-resistant fastenings	: Not applicable.	
Tactile warning of danger	: Not applicable.	
2.3 Other hazards		
Other hazards which do not result in classification	: Not available.	

Conforms to Regulation	n (EC) No. 1907/2006 (REACH),	Annex II - United Kingdon	n (UK)
ARALDITE CY 221			3/16
Date of printing	: 10 December 2012	(M)SDS no.	: 00058003
Date of issue	: 10 December 2012	Version	: 2

### **SECTION 3: Composition/information on ingredients**

Substance/mixture	: Mixture				
			Class	sification	
Product/ingredient name	Identifiers	%	67/548/EEC	Regulation (EC) No. 1272/2008 [CLP]	Туре
reaction product: bisphenol A- (epichlorhydrin); epoxy resin (number average molecular weight < 700)	CAS: 25068-38-6 EC: 500-033-5 RRN: 01-2119456619- 26	30-60	Xi; R36/38 R43 N; R51/53	Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411	[1]
diglycidylether of polypropyleneglycol	CAS: 9072-62-2 EC: Not available.	30-60	R43	Skin Sens. 1, H317	[1]
			See Section 16 for the full text of the R- phrases declared above.	See Section 16 for the full text of the H statements declared above.	

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

4.1 Description of first aid me	easures
Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

ARALDITE CY 221			4/1
Date of printing	: 10 December 2012	(M)SDS no.	: 00058003
Date of issue	: 10 December 2012	Version	: 2
SECTION 4: First ai	d measures		
Protection of first-aiders	may be dangerous to th	e person providing aid to g	k or without suitable training. It ive mouth-to-mouth resuscitation. before removing it, or wear
4.2 Most important sympton	ms and effects, both acute	and delayed	
Potential acute health effe	cts		
Eye contact	: Irritating to eyes.		
Inhalation	: No known significant effects or critical hazards.		
Skin contact	: May cause sensitisation by skin contact.		
Ingestion	: No known significant ef	fects or critical hazards.	
Over-exposure signs/sym	<u>ptoms</u>		
Eye contact	: Adverse symptoms ma irritation watering redness	y include the following:	
Inhalation	: No specific data.		
Skin contact	: Adverse symptoms ma irritation redness	y include the following:	
Ingestion	: No specific data.		
4.3 Indication of any immed	liate medical attention and	special treatment needed	I
Notes to physician		Contact poison treatment	specialist immediately if large
Specific treatments			indicated. Following severe I review for at least 48 hours.

### **SECTION 5: Firefighting measures**

5.1 Extinguishing media		
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	None known.	
5.2 Special hazards arising	m the substance or mixture	
Hazards from the substance or mixture	In a fire or if heated, a pressure increase will occur and the container may burst.	
Hazardous thermal decomposition products	Decomposition products may include the following materials: carbon dioxide carbon monoxide	
5.3 Advice for firefighters		
Special precautions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident there is a fire. No action shall be taken involving any personal risk or without suita training. This material is toxic to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.	ble

Date of issue / Date of revision : 12/10/2012.

	<b></b>			
Date of issue	: 10 December 2012	Version	: 2	
Date of printing	: 10 December 2012	(M)SDS no.	: 00058003	
ARALDITE CY 221				5/16
Conforms to Regulation	n (EC) No. 1907/2006 (REACH), A	Annex II - United Kingdon	n (UK)	

### SECTION 5: Firefighting measures

Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

### **SECTION 6: Accidental release measures**

6.1 Personal precautions, pro	tective equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section 8 for additional information on hygiene measures.
6.2 Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.
6.3 Methods and materials fo	r containment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spill product.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Refer to special instructions/safety data sheet. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
	Not applicable

Not applicable.

Date of printing	:	10 December 2012	(M)SDS no.	: 00	058003
Date of issue	:	10 December 2012	Version	: 2	
SECTION 7: Handlin	g	and storage			
Advice on general occupational hygiene	:	handled, stored and pro eating, drinking and sm	oking should be prohibited ocessed. Workers should oking. Remove contamina ing eating areas. See also measures.	wash hands and ated clothing an	d face before d protective
7.2 Conditions for safe storage, including any ncompatibilities	:	accordance with local re sunlight in a dry, cool at (see section 10) and for ready for use. Containe kept upright to prevent	wing temperatures: 2 to 40 egulations. Store in origina nd well-ventilated area, aw od and drink. Keep contail ers that have been opened leakage. Do not store in u it to avoid environmental c	al container pro ay from incomp ner tightly close I must be carefu nlabelled contai	tected from direct atible materials d and sealed until illy resealed and
Storage hazard class Huntsman Advanced Materials	:	Storage class 10, Envir	onmentally hazardous liqui	ids	
7.3 Specific end use(s)					
Recommendations	:	Not available.			
Industrial sector specific solutions	:	Not available.			
SECTION 8: Exposu	re	controls/person	al protection		
The information in this section consulted for any available use					ection 1 should be
8.1 Control parameters					
Occupational exposure lim	its				

of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

#### **Derived effect levels**

No DELs available.

#### Predicted effect concentrations

No PECs available.

#### 8.2 Exposure controls

#### **Appropriate engineering** controls

: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

#### Individual protection measures

Date of issue / Date of revision :		6/16	
Wellmid Electronics (Shenzhen)Co.,Ltd.	www.wellmid.com wellmid@wellmid.com	86-755-28168941	Fax:86-755-22648848

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II - United Kingdom (UK)						
ARALDITE CY 221				7/16		
Date of printing	: 10 December 2012	(M)SDS no.	: 00058003			
Date of issue	: 10 December 2012	Version	: 2			

## SECTION 8: Exposure controls/personal protection

Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, befo eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicate this is necessary.
Material of gloves for long term application (BTT>480min):	: butyl rubber, Ethyl Vinyl Alcohol Laminate (EVAL)
Material of gloves for short term/splash application (10min <btt<480min):< td=""><td>: nitrile rubber, neoprene</td></btt<480min):<>	: nitrile rubber, neoprene
(BTT = Break Through Time)	
	Use gloves approved to relevant standards e.g. EN 374 (Europe), F739 (US). Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material and dexterity. Always see advice from glove suppliers. Additional information can be found for instance at www.gisbau.de.
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the produc and the safe working limits of the selected respirator.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensur they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### **SECTION 9: Physical and chemical properties**

9.1 Information on basic physica	l and chemical properties	
Appearance		
Physical state	: Liquid.	
Colour	: Light yellow, Clear.	
Odour	: Slight, Epoxy	
Odour threshold	: Not available.	
рН	: Not available.	
Melting point/freezing point	: Not available.	
Initial boiling point and boiling range	: >200°C	
Flash point	: Closed cup: 188°C [DIN 51758 EN 22719 (Pensky-Martens Closed Cup)]	
Evaporation rate	: Not available.	
Flammability (solid, gas)	: Not available.	
Date of issue / Date of revision :	12/10/2012.	7/16

· · · · ·	molecular weight < 700): N	ot readily biodegradable.	, J
Product/ingredient name	Aquatic half-life	Photolysis	Biodegradability
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	Fresh water 4.83 days Fresh water 3.58 days Fresh water 7.1 days	-	Not readily

#### 12.3 Bioaccumulative potential

Product/ingredient name	LogPow	BCF	Potential
reaction product: bisphenol A-(epichlorhydrin); epoxy resin (number average molecular weight < 700)	3.242	31	low

#### 12.4 Mobility in soil

Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

#### 12.5 Results of PBT and vPvB assessment

Not applicable.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

#### 12.7 Other ecological information

#### **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods	
<u>Product</u>	
Methods of disposal :	The generation of waste should be avoided or minimised wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.
